

DREAM BIG - Special Cutting instructions for the outside of Aunties Two Poppins Bag ©2017

(Note: lines are not drawn perfectly to scale)

Step 1 Cut a strip 11" wide x width of panel from the center of the panel

Cut strip in half at the center yellow line. Place one on top of the other with petals facing up.

Outside pockets (**A**), cut two pieces 10" tall. Trim ¼" from each edge to 10½" wide (10" tall x 10½" wide)

Remaining pieces (**B1**) should be 11½" tall for Center Panels (piece under pockets). Set aside until Step 3.

Step 2 Cut a strip 8½" wide from the left and right side of the center strip

Cut strip in half at the center white line. Place one on top of the other with petals facing up (4 layers).

Side Panels (**C**), cut 4 pieces 18" tall for 4 pieces 18" tall x 8½" wide

Step 3 Finish Center Panels. The Center Panel pieces must be 18" tall x 11" wide.

Pieces cut in Step 1 are only 11½" tall so you must sew another piece to the bottom (arrow is pointing to the bottom). The seam will be under the outside pocket and will not show. The remaining outside strips should be about 7½" wide. Cut 2 pieces 7½" x 11". Sew one to the bottom of each B1 piece and trim to 18" tall.
